

FDA Selects ICF for \$49 Million IT Modernization BPA **Company Will Provide Technical and Management Services to Transform Agency's Digital Services Delivery**

FAIRFAX, Va., Oct. 14, 2020 [/PRNewswire/](#) -- The Food and Drug Administration (FDA) recently selected global consulting and digital services provider ICF (NASDAQ: ICFI) for a new single-award blanket purchase agreement (BPA) to provide IT platform, operations and maintenance, advisory and development services for its Digital Services Center. The BPA has a ceiling of \$49 million and a term of five years, including a one-year base and four one-year option periods.

ICF was also awarded its first task order under the BPA for an approximate value of \$4 million.

Under the BPA, ICF will help FDA modernize and transform IT systems across the agency and its business centers by facilitating the adoption of cloud-based software and platform best practices. The Digital Service Center is a shared service that provides Software and Platform as a Service (SaaS and PaaS) hosting, advisory, minimum viable product (MVP) development and strategic communications to the FDA business centers. ICF will facilitate the adoption of technologies like Appian, Salesforce, ServiceNow, Mulesoft and Microsoft Dynamics across the enterprise.

"ICF has supported FDA clients for over 35 years, providing public health IT, scientific support and survey research services, among others," said Mark Lee, senior vice president and public sector lead. "We're excited to bring our unparalleled combination of multiplatform architecture, design services and leading expertise in strategic communications, analytics, data automation and human-centered design to support the agency's digital transformation efforts."

One of the leading providers of cloud-based platform services to the U.S. federal government, ICF combines the best of advanced analytics, industry expertise and enterprise technologies to build agile solutions for clients. The company supports nearly every federal agency and a growing set of state and local clients with a wide variety of services, including strategic consulting, analytics, human capital management, cloud-based platform modernization, enterprise cybersecurity, disaster management, resilience planning and more. ICF was recently [named to G2Xchange's NXT UP list](#) of top Federal Emerging Technology and Consulting firms.
