Dividend Declaration

On November 6, 2019, ICF declared a quarterly cash dividend of \$0.14 per share, payable on January 14, 2020 to shareholders of record on December 13, 2019.

Summary and Outlook

"Year-to-date results have set the stage for strong full year 2019 performance. We reaffirm our expectation for full year 2019 revenues in the range of \$1.475 to \$1.5 billion, GAAP EPS to range from \$3.80 to \$3.95, exclusive of special charges, and Non-GAAP EPS of between \$4.10 and \$4.25. Operating cash flow is projected to be approximately \$80 million, lower than our original guidance range due to the longer payment cycle we are presently experiencing associated with the large, federally-funded contract we won in Puerto Rico in 2018. Revised cash flow guidance is based on recent payments on this contract and expectations for additional payments prior to year-end.

"Recent contract awards, backlog levels and the size and diversity of our business development pipeline provide an excellent platform for future growth. Based on our current visibility, we expect 2020 to be a year of continued growth for ICF across our major client categories, driven by our deep subject matter expertise and our cross-cutting capabilities in technology and engagement," Mr. Wasson concluded.

⁽²⁾These tables provide reconciliations of non-GAAP financial measures to the most applicable GAAP numbers. While we believe that these non-GAAP financial measures may be useful in evaluating our financial information, they should be considered supplemental in nature and not as a substitute for financial information prepared in accordance with GAAP. Other companies may define similarly titled non-GAAP measures differently and, accordingly, care should be exercised in understanding how we define these measures.

⁽³⁾Subcontractor and Other Direct Costs is Direct Costs excluding Direct Labor and Fringe Costs.

⁽⁴⁾Adjustment related to impairment of intangible assets: We recognized impairment expense of \$1.7 million in the second quarter of 2019 related to intangible assets associated with a historical business acquisition.

⁽⁵⁾Special charges related to acquisitions: These costs are mainly related to closed and anticipated-to-close acquisitions, consisting primarily of consultant and other outside third-party costs and amortization of deferred consideration payments, discounted as part of the acquisition.

⁽⁶⁾Special charges related to severance for staff realignment: These costs are mainly due to involuntary employee termination benefits for our officers and groups of employees who have been notified that they will be terminated as part of a consolidation or reorganization.

⁽⁷⁾Special charges related to facility consolidations, office closures, and our future corporate headquarters: These costs are exit costs associated with terminated leases or full office closures. The exit costs include charges incurred under a contractual obligation that existed as of the date of the accrual and for which we will continue to pay until the contractual obligation is satisfied but with no economic benefit to us. Additionally, we incurred one-time charges with respect to the execution of a new lease agreement for our corporate headquarters.

⁽⁸⁾Adjustment related to bad debt reserve: During 2018, we established a bad debt reserve for amounts due from a utility client that had filed for bankruptcy and included the reserve as an adjustment due to its relative size. The adjustment reflects a favorable revision of our prior estimate of collectability based on a third party acquiring the receivables.

⁽⁹⁾EBITDA Margin Percent and Adjusted EBITDA Margin Percent were calculated by dividing the non-GAAP measure by the corresponding revenue.

⁽¹⁰⁾Income tax effects were calculated using an effective U.S. GAAP tax rate of 23.6% and 22.9% for the three months ended September 30, 2019 and 2018, respectively, and 23.2% and 24.0% for the nine months ended September 30, 2019 and 2018, respectively.
