

EPA Awards ICF \$30 Million in Environmental Services

Scope Provides Quality Assurance Support to Two EPA Regions, Plus \$5 Million in New Services to a Third Region

FAIRFAX, Va., March 15, 2021 [/PRNewswire/](#) -- The U.S. Environmental Protection Agency recently awarded global consulting and digital services provider ICF (NASDAQ: ICFI) a new five-year, single-award indefinite delivery, indefinite quantity (IDIQ) contract valued up to \$30 million to provide technical, analytical and quality assurance support to inform the agency's decisionmaking process. The scope of work includes continued services to Regions 3 and 9 and was expanded by \$5 million from the previous contract to include services to Region 5.

ICF will provide laboratory, field and quality assurance support to help EPA identify, assess, regulate and remediate environmental hazards for various agency programs such as Superfund, hazardous and non-hazardous waste, air and water, among others. This includes performing analytical and field support services, data review and validation, technical information and electronic data transfers and other support functions.

"ICF has consistently delivered high-quality analyses and reliable data to help the agency meet the ever-changing needs of its programs," said Jennifer Welham, ICF senior vice president and health sciences and human services lead. "We look forward to providing exceptional quality assurance services that support EPA's critical mission of protecting human health and the environment."

ICF's environmental consultants help clients protect natural resources and meet regulatory requirements. The company offers integrated technical, policy and regulatory expertise that guides clients in developing and implementing programs to successfully assess and clean up contaminated sites.
