A recognized industry leader, Salmirs brings extensive experience in initiating and maintaining business growth through transformative strategies and operations. "I am impressed by ICF's strategically diversified portfolio and leading capabilities in critical areas such as IT modernization, public health, climate, resilience, energy and more," said Salmirs. "ICF is in a unique position to provide its clients with both advisory and program implementation services around these front-burner issues. It's an exciting time to join the board of directors."
