

## **SAMHSA Selects ICF for \$1.2 Billion Mental Health IDIQ**

### ***Company Holds Prime Position in Four of Six Domains to Support Behavioral Health Programs***

FAIRFAX, Va., Oct. 20, 2022 /PRNewswire/ -- The Substance Abuse and Mental Health Services Administration (SAMHSA) recently selected global consulting and digital services provider ICF (NASDAQ:ICFI) as an awardee under its multiple-award recompetes indefinite delivery, indefinite quantity (IDIQ) contract to support the agency's mission of reducing the impact of substance use and mental illness on America's communities.

The five-year IDIQ has a ceiling value of \$1.2 billion across all awardees. A total of six domain areas were awarded under the IDIQ: five for large contractors, one for small contractors. ICF is eligible to compete as a prime contractor in four of the five large contractor domains. They include evaluation, communications, statistical projects and training and technical assistance. ICF also holds subcontractor positions on the remaining two domains: policy and program support.

ICF will bring its full range of capabilities in data analytics, aggregation and accessibility; innovative research and evaluation methods; communications and media relations; program delivery and support; digital modernization; and more to support SAMHSA's behavioral health programs.

"Through our long-standing work with SAMHSA, we understand firsthand the agency's incredible impact on preventing suicide and substance abuse, promoting and treating mental illness and substance use disorders, and enhancing behavioral health equity," said Mark Lee, ICF executive vice president for public sector. "We look forward to continuing to support SAMHSA in leading the federal effort to improve the lives of individuals living with mental and substance use disorders."

ICF has partnered with SAMHSA for over 30 years, supporting numerous priority initiatives including providing timely access to substance use and mental health trends, improving children's mental health and wellness, and addressing other issues such as underage drinking, suicide prevention, behavioral health treatment court collaboratives, supported employment and more.

ICF combines deep domain and scientific expertise with leading-edge technology solutions to help public health clients address their greatest challenges and design solutions that increase understanding of disease causation and improve outcomes for all populations.
