

## Pennsylvania Selects ICF for \$64 Million Data Modernization Contract

### ***Scalable Solution Will Drive Operational and Cost Efficiencies***

RESTON, Va., Jan. 22, 2026 /PRNewswire/ -- ICF (NASDAQ:ICFI), a leading global solutions and technology provider, was recently awarded a \$64 million contract by the Pennsylvania Insurance Department to [modernize](#) and operate its [environmental](#) claims management system. The recompetitve contract has a five-year base period with one five-year option period.

ICF will build a scalable, modernized Fund Management System (FMS) to support the Pennsylvania Underground Storage Tank Indemnification Fund (PA USTIF). The company will migrate core FMS applications to the cloud to improve and accelerate service delivery. The new platform will leverage data and automation to streamline state workflows; improve performance, reliability and security; deliver real-time analytics; and drive operational and cost efficiencies.

"Leveraging our expertise in applied design, data and leading technologies, as well as environmental planning, we're working to simplify and optimize the delivery of government services," said David Birken, ICF senior vice president for digital modernization and experience. "We look forward to delivering a modernized, cohesive system that accelerates responsible and compliant management across Pennsylvania and improves health and environmental outcomes."

ICF combines technology solutions with local staff who have deep, industry-specific expertise to help [state and local governments](#) deliver more with less. Working with various states nationwide, ICF has achieved measurable results in building stronger, more resilient communities.
